EMPLOYEE TRAINING RECORD

TRAINING TITLE	Earthmoving Equipment

KEY TEACHING POINTS

These rules apply to the following types of earthmoving equipment: scrapers, loaders, crawlers or wheel tractors, bulldozers, off-highway trucks, graders, agriculture and industrial tractors, and similar equipment (this does not include compactors and rubber-tired "skid steer" equipment).

- Anytime equipment or its parts are suspended by use of slings, hoists, or jacks, they should be blocked or cribbed to prevent falling or shifting before employees are permitted to work under or between them.
- Dozer and scraper blades, end loader buckets, dump bodies, and similar equipment, should either be fully lowered or blocked when being repaired or when not in use.
- All controls should be in the neutral position with the motors stopped and brakes set unless the work being performed requires otherwise.
- Seat belts need not be provided for equipment which is designed only for stand-up operations; i.e., graders or for equipment which does not have roll-over protection structure or adequate canopy protection. In other words, if you have overhead protection, you must wear a seat belt unless it is designed for stand-up operations.
- Check the braking system on all equipment - it must be capable of stopping and holding the equipment fully loaded.
- Watch for road conditions - icy and wet roads should be used with extreme caution.
- Keep ladders, walkways, and tracks clear of mud, ice, snow, etc., to insure proper footing.

TEST

QUESTION	ANSWERS	
	TRUE	FALSE
1 Check the braking system on all equipment.		
2 If you have overhead protection, you must wear a seat belt unless it is designed for stand-up operations.		
3 Dozer and scraper blades, end loader buckets, dump bodies, and similar equipment, should either be fully lowered or blocked when being repaired or when not in use.		
4 Keep ladders, walkways, and tracks clear of mud, ice, snow, etc., to insure proper footing.		
5 Watch for road conditions - icy and wet roads should be used with extreme caution.
